Simple Directmedia Layer

Download the Simple Directmedia Layer :<https://www.libsdl.org/download-2.0.php>

Official information about SDL: <http://wiki.libsdl.org/FrontPage>

Download a C++ Compiler

Visual Studio Community Edition: <https://visualstudio.microsoft.com/free-developer-offers/>

Code::Blocks:<http://www.codeblocks.org/>

Dev-C++:<https://www.bloodshed.net/devcpp.html>

Example → Installing SDL2 into Code::Blocks

1. Create an empty project, copy the sdl related .dlls to the project directory. SDL2.dll

2. Type: -lmingw32 -lSDL2main -lSDL2

into the linker options inside the build project options.

(Note: Other compiler no dashlines before the input above)

3. Need the (Lib, Include) directory from your sdl downloads.
